

A Virtual-First Care Option for

DENTAL PLANS

Balancing client and member expectations while achieving business goals can be challenging in today's competitive marketplace. A virtual-first dental care solution differentiates your dental plan with a benefit that leads to healthier members and a lower overall cost of care.

Dentistry.One was built with proprietary, technology-driven innovation meticulously designed to help commercial dental plans:

Attract & Retain Members

With a convenient and compliant virtual dental care solution that meets consumer expectations with services ranging from emergency care to on-demand and asynchronous consultations for general dental concerns.

Reduce the Cost of Care

By capturing savings beyond dental with easy access to virtual dental care that encourages wellness and prevention and leads to improved outcomes for high-risk patients with chronic health conditions.

Increase Cost-Efficient Healthcare

By reducing in-office and emergency department visits with early intervention, on-demand virtual dental care, and e-prescribing, when indicated.

Enhance Client and Member Satisfaction

With a virtual dental care option that helps members prioritize their oral health and demonstrates your understanding of what differentiates organizations in today's competitive marketplace.

Data-Driven Member Engagement

Providing targeted omnichannel education campaigns to increase member engagement and enhance the member experience, while reducing the cost of care and addressing plan-specific needs.

Add Dentistry.One to your existing dental benefit or as a standalone option and offer members the dental care they need when they need it:

 **A Nationwide Network of On-Demand Dentists**

 **Care Advisors Expert in Oral Hygiene**

 **Personalized Care Coordination for In-Office Appointments**

 **Benefits Navigation to Increase Member Engagement**

 **Oral Health Coaching and Tailored Information & Education**

 **Data-Driven Engagement and Education Campaigns**

Dentistry.One virtual-first oral health care offers a nationwide network of on-demand dentists, personalized care coordination, oral health coaching, a digital connection between dental and medical care through proprietary software, and benefits navigation to help patients more easily obtain care. Round out your wellness offering with Dentistry.One.
